

Goshen Concierge

Meet & Greet Service

Goshen Concierge Meet & Greet Service helps companies to manage and fulfil their duty of care to their workforce.

We provide a non-emergency patient transportation solution for companies whose workers have been medically or dentally evacuated from offshore installations. We can also provide medical escort services to employees in the onshore working environment.

With our team of first aid trained, dedicated drivers and comfortable, fully equipped vehicles, our service is much more than just door-to-door. We go the extra mile to ensure that your personnel are well cared for and that all of your responsibilities as the employer are not only met, but exceeded and documented.

Our service is flexible, with various package options, and customised to suit your company procedures. Contact us today to arrange an appointment.

Key service benefits:

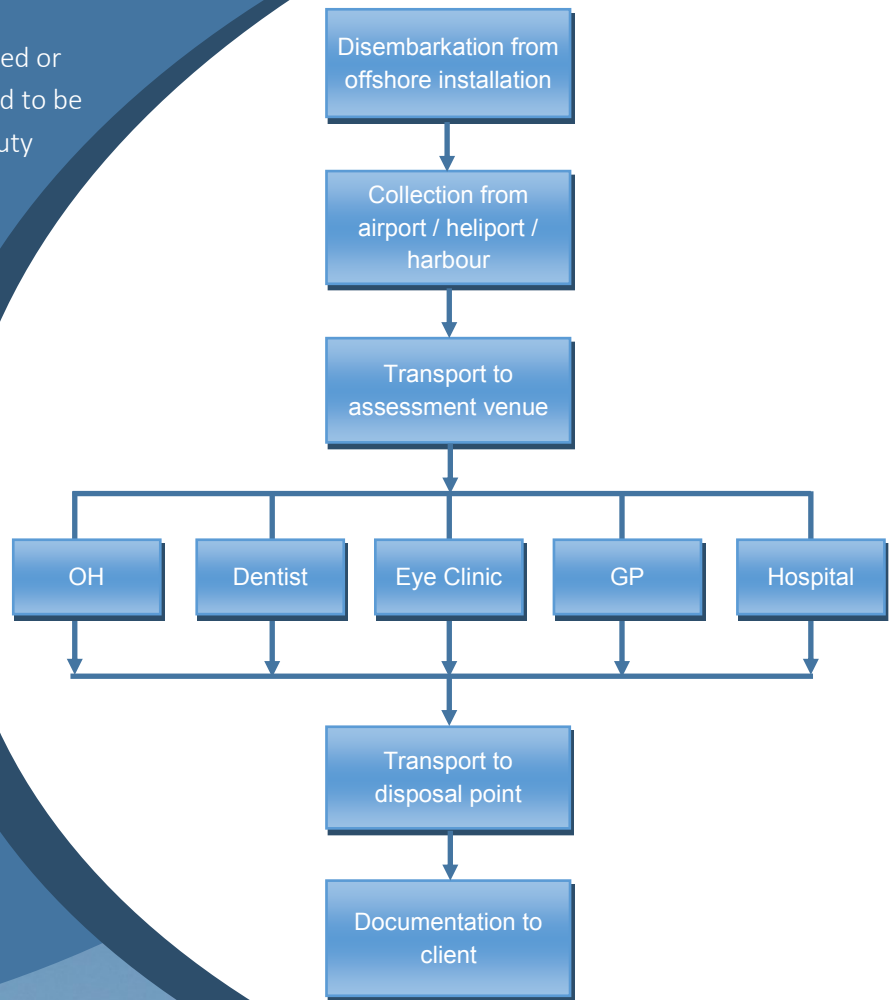

- Dedicated, professional drivers, trained in first aid
- Personal, friendly service, attentive to the needs of the patient
- Efficient transportation and concierge services (including prescription collection)
- Liaison with healthcare and dental services
- Post-disposal logistic management
- 16-hour availability, from 6am till 10pm
- Fully tracked and documented service
- Detailed feedback and communication for employers

Workers medically or dentally evacuated (medevaced or dentevaced) from offshore installations are required to be met at the heliport by escorts acting on behalf of duty holders.

Due to the itinerant nature of the workforce, the escort function remains critical in mitigating the exposure from a loss to follow-up, should the evacuee fail to attend for a disposal assessment. For an industry that is safety driven, such failures are potentially damaging, particularly under the IADC, OSHA and RIDDOR rules.

Goshen Concierge Meet & Greet aims to enhance the competitive advantage of all our clients by providing a risk-mitigating solution for the duty of care owed to offshore medical and dental evacuees.
